

R. Jacob Newman, MBA

Manager

R. Jacob Newman, MBA, has been working with RWH Myers since 2004 and opened the firm's Dallas office in 2008. Currently he is the manager of the Dallas office.

Experience

Jake Newman began his accounting career in 2004, coinciding with the start of the historically destructive hurricane seasons of 2004 and 2005. From the first, he was exposed to a number of large and complex property damage, extra expense, and business interruption claims. Working closely with RWH partners, he performed preliminary analysis and supporting functions for these claims. Soon he had advanced to leading and settling engagements for several large and precedent setting claims.

Among the clients he handled during this time was Lone Star Fasteners, LP, for which he prepared a revised business interruption claim after the company received an unreasonably low settlement offer from its insurer. The final settlement represented a 300 percent increase over the initial offer. Mr. Newman also calculated and presented business interruption values for a Master Limited Partnership owned and operated by Anadarko Petroleum Corporation, and prepared or was involved in the preparation of business interruption values for American Airlines and Texas Petrochemicals, Inc.

Since then, Mr. Newman has represented companies in a wide range of industries, including energy and petrochemical, forest products, manufacturing, hospitality, transportation, health care, retail, wholesale, real estate, and consumer goods. His work has resulted in the resolution of claims in excess of half a billion dollars.

Education

University of Texas at Dallas, BS Accounting and Information Management (2005)

University of Texas at Dallas, MBA Finance and Accounting (2008)

The Colorado School of Mines, Petroleum Refining and Economics (2008)
